

# Stand Up Straight!

Postural problems can seriously affect a child's health, causing misalignments in the spine, which can interfere with a child's nervous system.

# Stand Up Straight!

Maintaining a good posture helps the nervous system work at its best – **improving the child's overall health!**

# Balance and Support

Custom-made Spinal Pelvic Stabilizers slip into shoes to help improve the body's balance, posture and alignment.

# Stabilizers Do a Body Good

Stabilizers give children the comfort, support and protection their growing bodies need.

# Big Support for Small Feet

Ultra Young Soles® are Stabilizers designed specifically for children ages 5 to 12.
